

**Facts**  
that **speak** for themselves!

Always on hand to help with hygiene – **in Europe and around the world.**

**The first impression makes all the difference. And so does the second.**

Particularly when it comes to cleanliness and hygiene, the first impression has to be just right. For long-term satisfaction, factors such as hygiene safety, efficiency and service are vitally important. This means performance and results have to stand the test under the microscope, that sustainable solutions must be found for individual needs, and many other challenges.

How we enable you to achieve this is explained in the ten reasons for trusting Dr. Weigert. You will see it makes good sense to consider our products and services.

**So just get to know us.**

The safe decision:  
**10 reasons**  
to trust in Dr. Weigert.

## 10 reasons why we take responsibility.

### 1. Cleaning and disinfection – quality that sets standards.

Our high product quality is not only constantly confirmed by a wide range of certifications, but is also highly appreciated in expert circles. Furthermore, it is a holistic approach to the hygiene process and our expertise that enable us to optimise methods and find innovative solutions. Our quality is not just a promise, but also a measurable value.

### 2. Efficiency that pays off.

One of the greatest advantages of our products and processes is their cost-efficiency. The high level of efficiency of our products, combined with our process optimisation, results in significant savings in process chemicals, water and energy. The efficiency of the Dr. Weigert system therefore benefits the environment in particular – good news both for you and future generations.

### 3. Individual solutions are standard at Dr. Weigert.

Answering our customers' individual requirements and catering for various on-site conditions are part of our everyday work. Dr. Weigert therefore offers system and product solutions that are tailored to our customers' unique requirements. Our standard range alone includes over 1,000 products for as many different tasks. So what can Dr. Weigert do for you?

### 4. Laboratory and on-site analyses ensure clarity.

Dr. Weigert has a specialised laboratory where water samples from customers are analysed daily. As well as modern residue analyses, this facility also carries out quality monitoring of raw materials and end products. In our microbiological laboratory, we evaluate biocontrol samples. Our service personnel's on-site analyses also offer immediate clarification. All this enables us to offer our customers sustainable solutions and 100% test-assured safety. This is a matter we at Dr. Weigert see to ourselves.

### 5. Dosing technology for maximum efficiency.

Our solutions in the area of dosing technology help our customers to optimise cost efficiency and ensure maximum hygiene and process safety as well as staff protection. The systems are planned precisely according to specific requirements and configured in line with the customer's needs. Whether for simple or complex tasks – for all solutions in the area of dosing technology, Dr. Weigert is a reliable partner with a long-term outlook and outstanding products and services.

### 6. We take a personal approach to logistics.

Dr. Weigert is represented in over 50 locations worldwide. This enables us to offer truly close customer relations. For us, customer service is not just fast, reliable delivery, but also means providing impeccable customer care. Our expert advisers carry out local research on-site in order to offer optimum solutions for our customers in cooperation with trusted retail partners.

### 7. Research for the future.

The many years of success of our products and services is the result of continual improvements. From research and product development to process optimisation, applications technology and customer service – we never stop thinking about the next step. That is how we safeguard our future, and that of our customers.

### 8. Made in Germany.

Dr. Weigert has been developing and producing innovative hygiene solutions for over 100 years. As an independent family company, we are active across the world and can respond to market requirements quickly and flexibly. This requires the close cooperation between our sales, development and production departments. Dr. Weigert defines itself as a German-based company – the perfect location for top quality.

### 9. Brands with global renown.

neomoscan® and neodisher® – the brands and products of Dr. Weigert are known across the globe. But other than this renown, what really set the Dr. Weigert brands apart are the consistent quality, efficiency, reliability and safety they are known for. Strong brands that boast impressive performance – that is not just a promise, but our guarantee!

### 10. Sustainability is at the core of our business.

Points one to nine are only possible because at Dr. Weigert, our customers and staff members are continually the main focus of the business. We take an active approach to instruction and further training, and also ensure a continual development of specialised expertise. Dr. Weigert's roles in various national and international associations are also highly valued. And in terms of environmental protection at our production site in Hamburg, we go much further than what is legally required of the company. After all, we aim to still be market leaders in the development of hygiene solutions in the next 100 years.
